

DR. PEEYUSH TOMAR

Associate Consultant - Neurosurgeon and Neuroendovascular Interventionalist

Qualification

MBBS | DrNB Neurosurgery | Fellowship Stroke and Neuroendovascular Intervention, Manipal Hospitals, Bangalore

Overview

Dr. Peeyush Tomar is the best neurosurgeon doctor in Delhi currently working as an Associate Consultant in Neurosurgery at the Manipal Hospitals, Dwarka, India. With an impressive academic background and extensive experience in the field, Dr. Peeyush Toamar is recognised for his expertise in various neurosurgical procedures. He holds an MBBS degree from Maharani Laxmibai Medical College, Jhansi and completed his DrNB in Neurosurgery from the prestigious Rajendra Institute of Medical Sciences, Ranchi. His commitment to advancing his knowledge and skills is evident through his fellowship in stroke and neuroendovascular intervention. In addition to this, he also actively participates in national and international seminars, workshops, and events dedicated to the developments in the field of neurosurgery. As a dedicated professional, Dr. Peeyush Tomar has specialised in multiple areas within neurosurgery. His expertise lies in performing Vascular and Neuroendovascular surgery and stroke interventions, Brain tumour surgery, Endoscopic neurosurgery, Spine surgery, and skull base surgery. He has gained proficiency in handling intricate cases involving Aneurysms, Arteriovenous malformations (AVMs), skull base tumours, spinal decompressions, and fusions over the past 8 years. Dr. Peeyush has successfully performed 1000 surgeries to date. He is also recognised for his research work which involves the role of surgery as a standalone procedure in the treatment of Cranial Dural Avf, a study of Transpedicular Screw Rod Fixation in cases of Traumatic Thoracic And Lumbar Injury patients, Endoscopic Evacuation of Basal Ganglia Hemorrhage: An Institutional Study and Endoscopic Removal of Complete Intracranial Migration of Vpmp Shunt: A Case Report. Dr. Peeyush is fluent in Hindi and English and dedicates time to listening and interacting with the patients. This helps him curate a personalised treatment plan that focuses on their specific needs and recovery goals. The positive reviews he receives from his patients are a testament to the great work he is doing. He is also admired by his patients for his compassionate conduct and sincerity.
