### Qualification

MBBS | MD | FRM BACCRGUHS 2012 | MRM Homerton University hospital, London 2016

### Overview

Dr Nirmala Mohan is a renowned fertility specialist in Bangalore, India. She has been a consultant at Manipal Hospitals in Hebbal for over 20 years. Dr Sneha Shetty has completed her Bachelor of Medicine & Bachelor of Surgery - MBBS From the esteemed S.D.M. College of Medical Sciences & Hospital. She completed a postgraduate degree in obstetrics and gynaecology from the esteemed Mahadevappa Rampure College of Medical Sciences and Hospital. From Manipal, India, Dr Mohan graduated from Kasturba Medical College. The same university granted her postgraduate obstetrics and gynaecology degree. Dr Mohan is a Bangalore-trained reproductive medicine specialist. She belongs to the I.M.A., FOGSI, and ASRM. Dr Nirmala Mohan is a fertility expert, obstetrician, and gynaecologist employed full-time as a consultant in the assisted conception section at Columbia Asia Hospital in Hebbal, Bangalore. She has achieved distinction and won a gold medal during her college career. She worked as a Senior Consultant at Bangalore Baptist Hospital (B.B.H.) for more than ten years after receiving her postgraduate degree from the prestigious government medical college in Bellary, Karnataka (now VIMS), where she handled a wide range of challenging cases and mentored numerous undergraduate and postgraduate D.N.B. students. Dr Kamini Rao's Bangalore Assisted Conception Centre (BACC), now MILANN, the top-ranked institute in the nation, awarded her a fellowship in reproductive medicine as part of her ongoing effort to stay current with medical advancements and practices. Additionally, she completed a master's degree in reproductive medicine and surgery at the Homerton University Hospital in London, United Kingdom. No wonder she is considered the best fertility specialist in Hebbal, Bangalore. She also belongs to the RCOG. She has contributed to a chapter on dynamic emergencies in a FOGSI publication, published journal articles, and delivered lectures at numerous conferences. She belongs to several organizations, including I.M.A., FOGSI, BSOG, ISAR, KISAR, and ISMAAR. She is particularly interested in natural cycle IVF and minimum stimulation and ardently desires to make "ART AFFORDABLE TO ALL" in the world. All facets of fertility, including infertility, IVF, IUI, and surrogacy, particularly interest Dr Mohan. She is a compassionate and highly skilled medical professional dedicated to giving her patients the finest care possible. Due to her reputation for a personalized approach to care, Dr Mohan works closely with each of her patients to develop a unique treatment strategy that addresses their individual needs. Dr Mohan has a large record of grateful patients, and she is frequently named one of Bangalore's finest fertility doctors. She is an expert medical professional who is a great complement to the Manipal Hospitals team. Dr Mohan is a clinical specialist who also does active research. She frequently speaks at national and international conferences and has multiple papers in prestigious medical publications. Dr Mohan is dedicated to developing the field of fertility medicine and is constantly searching for innovative approaches to support her patients in realizing their parental aspirations. Dr Nirmala Mohan can treat infertility. Kind and dedicated to patient care, she is a doctor. Contact Dr Mohan immediately to schedule an appointment and learn how she might help you reach your parental goal.
