

## DR. DAYANANDA SAGAR.G

Consultant- Radiologist

## Qualification

MBBS | MD

#### Overview

Dr Dayananda Sagar. G, a renowned Radiology Consultant in Hebbal is also an esteemed medical team member at Manipal Hospitals. Dr Dayananda Sagar. G is a leading Diagnostic Radiology and Musculoskeletal Radiology (MSK MRI) authority in Bangalore. His exceptional expertise has solidified his position as an expert in the field. With a meticulous approach and compassionate patient care, Dr Sagar is highly regarded for his skill and dedication. His commitment to providing accurate diagnoses and comprehensive treatment plans has garnered immense respect among colleagues and patients at Manipal Hospitals. Dr Dayananda Sagar. G has pursued extensive academic and professional development through his fellowships and memberships. As a Corresponding Member of the European Society of Radiology, he maintains a global perspective in his field. Notably, he completed a Mini-fellowship in Musculoskeletal Radiology by Radiology Education Asia in August 2018 in Kuala Lumpur, Malaysia, further enhancing his expertise in this specialised area. Dr Sagar's contributions extend beyond his clinical work, as evidenced by his notable talks and publications. His case reports, and research articles have been recognised and awarded, including the prestigious Best Article Award from the Journal of Orthopaedic Case Reports for his remarkable study. Dr Dayananda Sagar. G contributed to the Journal of the Indian Academy of Clinical Medicine in 2013 with a publication on "MRI Spectrum of CNS Tuberculosis." No wonder he is considered the best radiologist in Hebbal, Bangalore. These accomplishments demonstrate Dr Sagar's dedication to advancing the field of radiology through his scholarly contributions. Dr Dayananda Sagar. G is a highly skilled radiologist and a multilingual communicator. Fluent in Kannada, English, Hindi, Tamil, Malayalam, and Tulu, he effortlessly connects with diverse patients. His linguistic proficiency fosters strong rapport, enabling precise and comprehensive communication during diagnosis and treatments. Dr Sagar's ability to converse fluently in multiple languages reflects his commitment to personalised and patient-centred care. By speaking the native languages of his patients, he fosters trust and understanding and ensures that crucial medical information is conveyed accurately, ultimately enhancing the overall patient experience. Dr Dayananda Sagar G is an exceptional radiology expert specialising in Diagnostic and Musculoskeletal Radiology. Diagnostic Radiology employs advanced imaging techniques to diagnose and monitor various medical conditions, enabling accurate assessments and guiding effective treatment plans. Musculoskeletal Radiology specialises in imaging and diagnosing musculoskeletal conditions using MRI. His extensive knowledge and skills enable accurate diagnosis and practical treatment recommendations. Patients and colleagues highly value his proficiency and compassion. Dr Sagar's contributions to radiology make him an invaluable asset to Manipal Hospitals, leaving a lasting impact on patients' lives.
