

DR. ROHINI THAKUR

Senior Consultant Dermatology & Cosmetology

Qualification

MBBS MD

Overview

Dr. Rohini Thakur has clinical experience in handling dermatological emergencies and surgical procedures (nail surgeries, hair transplantation and vitiligo surgeries such as punch grafting, flip top grafting and suction blister technique). She has expertise in using ultrapulse CO2 laser, Nd: YAG laser, IPL and Fractional Erbium glass laser. Dr. Rohini is also trained in chemical peeling, electrocautery, phototherapy, dermabrasion, botox and fillers. She specialises in the diagnosis, treatment, and management of diseases and disorders of the skin, hair, and nails. Dr. Thakur provides comprehensive skin care, including skin cancer screening, acne treatment, and cosmetic dermatology. Dr. Rohini Thakur is currently working as a Senior Consultant at the Department of Dermatology & Cosmetology at Manipal Hospital Patiala. Dr. Rohini's areas of expertise include Clinical Dermatology, Cosmetic and Aesthetic Dermatology and Laser Dermatology. She is one of the best skin specialists in Patiala, known for her skills and many success stories. Dr. Rohini has handled many complex cases in the past and has offered customised treatment plans to patients. Dr. Rohini is a firm believer in patient's rights and ensures that all her patients make informed decisions whenever they are going for a treatment/procedure. To ensure this, she educates, counsels and answers all the concerns that a patient may have regarding the procedures. She conducts comprehensive skin examinations to diagnose and treat skin diseases and disorders and provides topical and oral medications for skin conditions. Dr. Thakur stays up-to-date on the latest advances in dermatology and also actively participates in clinical research and trials. In addition to these essential duties and responsibilities listed above, Dr. Rohini is also involved in teaching and research. She also participates in public health initiatives taken by the Manipal Hospitals to promote skin health and prevent skin cancer. The positive feedback from her patients is a testament to her sincere and skilled work in the field.
