

DR. NAGABHUSHAN K N

Consultant - Interventional Radiologist

Qualification

MBBS | MD (Radiodiagnosis) | Fellow in GI imaging and Interventions

Overview

Dr. K. N. Nagabhushan is a distinguished Consultant - Interventional Radiology at Manipal Hospital Whitefield, Bangalore. With a rich academic background and a robust professional trajectory, Dr. Nagabhushan is renowned for his proficiency in gastrointestinal (GI) radiology and various interventional procedures, including Biopsies of solid organs as well as bone, Fine Needle Aspiration Cytology (FNACs), Ablation of lung, renal, and liver tumours, as well as Embolization for various tumours. He is proficient in Transarterial Chemoembolization (TACE) and Transarterial Radioembolization (TARE) for hepatocellular carcinoma (HCC). He is the foremost Interventional Radiologist in Whitefield. Dr. K. N. Nagabhushan's expertise extends to Embolization for hemoptysis, epistaxis, trauma, and peripheral angiograms and angioplasty, as well as dialysis fistula management, Budd-Chiari syndrome, and transplant interventions. He has extensive experience in the placement of chemo ports and PICC lines as well. Dr. Nagabhushan's career in medicine began with an MBBS from Mysore Medical College & Research Institute in 2010. He furthered his specialisation by earning an MD in Radiology from Sanjay Gandhi Postgraduate Institute for Medical Sciences, Lucknow, in 2014. In pursuit of further specialisation, Dr. Nagabhushan completed a Fellowship in GI Radiology and Interventions at the Asian Institute of Gastroenterology. This fellowship honed his skills in cutting-edge GI radiological techniques and interventional procedures, setting the stage for his future endeavours in interventional radiology. Dr. K. N. Nagabhushan's professional journey is characterised by significant roles in prominent medical institutions. This provided him with extensive hands-on experience and exposure to a wide range of radiological practices. Subsequently, he served as an Assistant Professor in the Department of Radiodiagnosis at the Government Medical College, where he contributed to both academic and clinical advancements. Being one of the best Interventional Radiologists in Whitefield, Dr. Nagabhushan routinely performs complex interventions and advanced radiological services. Moreover, Dr. K. N. Nagabhushan is a respected member of several prestigious medical boards and associations, reflecting his commitment to continuous professional development and adherence to high standards of practice. He holds memberships in the Society of Interventional Radiology (SIR), the Cardiovascular and Interventional Radiological Society of Europe (CIRSE), the Indian Radiological and Imaging Association (IRIA), and the Indian Society of Vascular and Interventional Radiology (ISVIR). His registration with the Karnataka Medical Council underscores his compliance with regulatory standards. Furthermore, his scholarly contributions are noteworthy, encompassing a range of publications and presentations that highlight his expertise and dedication to advancing the field of radiology. Dr. Nagabhushan's aspiration to continue advancing his practice in interventional radiology, working alongside a dedicated IR team to deliver the highest standard of care, serves as an inspiration for his peers and patients.

Fellowship & Membership

- Society of interventional radiology- SIR-member
- CIRSE 80717-member
- ISVIR - FM-488

Field of Expertise

- Treatment of acute gastrointestinal bleeding
- Hemoptysis and epistaxis
- TIPS and BRTO
- Biopsy and tumor ablations
- Transarterial chemoembolization of HCC and other tumours
- Vertebroplasty
- Placement of PICC lines, Chemoports, tunnelled catheters
- Management of failing dialysis fistula
- Treating aortic dissection and aneurysms
- Drainage/aspiration of collections
- Percutaneous cholecystectomy/PTBD-stenting
- IVC filter placement and retrieval
- Treatment of acute and chronic limb ischemia
- Varicose vein ablation
- Catheter-directed thrombolysis for pulmonary vasculature and mesenteric ischemia
- Clot removal therapy in acute stroke.
- Carotid artery stenting
